

VITABROW

WHY CHOOSE?

Vitabrow from EyEnvy® is a breakthrough formula that is used on brows and lashes during the night. It helps to achieve fuller & stronger brows while improving the texture. The combination of peptides tonifies your eyebrows to prevent breakage and softens it to help manage difficult/springy eyebrows and lashes. Includes an easy applicator to comb through brows and help stay in place. It is an excellent complement to the EyEnvy® lash conditioner and also compliments Lash lifts and Brow Laminations for maintenance and longevity. Infused with a light lavender scent.
